Richie Yin
Seattle, WA
(206) 468 7044
richiesyin@icloud.com

Objective
Highly motivated and detail-oriented Full Stack Software Engineer with experience in a diverse range of programming languages and frameworks, seeking to leverage my skills to contribute to the development and growth of innovative software solutions.

Education
Coding Dojo, REMOTE ONLINE
Full Stack Web Developer Certificate, 03/2023

Skills
Web Fundamentals: HTML5, CSS3, JavaScript, jQuery, Git/GitHub, Bootstrap, HTTP Requests
Python Full Stack: Python, MySQL, Flask, APIs
MERN Full Stack: MongoDB, Express, React, Node.js, Advanced JavaScript, Socket.IO
Java Full Stack: Java 8, JSP, Spring MVC, JUnit, JVM
Strong problem-solving and debugging skills
Excellent communication and teamwork abilities
Adaptability to learn new languages and technologies
Fully capable of complete remote work

Projects
GrabNGo! (Python Full Stack)
Developed a web application using Python, MySQL, Flask, and APIs
Implemented [feature], resulting in a [quantifiable benefit or improvement]
Collaborated with a team of [number] developers using Git/GitHub for version control

GymBud (MERN Full Stack)
Built a responsive web application using MongoDB, Express, React, and Node.js.
Implemented Artificial Intelligence (AI) training and complex algorithms to provide users and all in one source.
Optimized application performance by implementing APIs.

ToDoList (MERN Full Stack)
Built a responsive web application using MongoDB, Express, React, and Node.js.
Implemented Artificial Intelligence (AI) training and complex algorithms to provide users and all in one source.
Optimized application performance by implementing APIs.

Job Hunter (Java Full Stack)
Developed a scalable web application using Java 8, JSP, Spring MVC, JUnit, and JVM

Implemented [feature] that improved application [performance, security, or usability]
Collaborated with cross-functional teams to ensure seamless integration with other components

Experience
[Company Name], [City, State]
Software Engineer Intern, [Start Date - End Date]

Collaborated with a team of software engineers to develop and maintain web applications
Assisted in implementing new features using Python, React, and Java technologies
Conducted code reviews, ensuring adherence to best practices and coding standards
Participated in daily stand-ups, sprint planning, and retrospective meetings
Certifications
Coding Dojo: Python Full Stack, MERN Full Stack, and Java Full Stack
[Any other relevant certifications, if applicable]
Awards and Honors
[Any coding competitions, hackathons, or awards you have received, if applicable]
Languages
English (Fluent)
[Any other languages you speak, if applicable]
